Hospital visits from the Rabbi - Let Us Know

When you or your loved one are hospitalized, Rabbi Mark wants to visit you. Confidentiality laws prohibit hospitals from informing us when you are there, so the only way that he can come and provide words of comfort, a spiritual moment or a healing connection; is if you inform us. To insure a clergy visit from our rabbi when you are in the hospital, contact the office at 973-696-2500.
